### Vision

To become a leader in providing academic excellence with career development skills and research abilities in the area of Computer Science & Engineering.

### Mission

- To achieve academic excellence through innovative learning practices.
- To prepare students to adapt to the challenges of an ever changing market needs.
- To build necessary skills required for employability through career development training.
- To create interest among students to pursue higher studies.
- To enrich students with good character and high integrity to serve the society.
- To promote research and development in the frontier areas of Computer Science & Engineering.
- To inculcate the spirit of moral values and discipline among students.

### Program Educational Objectives (PEOs)

**PEO 1:** Graduates will have the expertise in analyzing real time problems and providing appropriate solutions related to Computer Science & Engineering.

**PEO 2:** Graduates will have the knowledge of fundamental principles and innovative technologies to succeed in higher studies and research.

**PEO 3:** Graduates will continue to learn and to adapt technology developments combined with deep awareness of ethical responsibilities in profession.

The Department of Computer Science & Engineering was established in the academic year 2001-02 with an annual intake of 60. The intake was increased to 120 from the academic year 2006-07. The department intake was increased to 180 from the academic year 2012-2013. The Department is offering two M.Tech courses Computer Science & Engineering and Software Engineering. The UG-CSE Programme is accredited by **NBA (National Board of Accreditation, AICTE, Delhi)** in Tier-I and PG-CSE Programme is accredited by **NBA (National Board of Accreditation, AICTE, Delhi)** in Tier-II.

The Department focuses on preparing the students for wide range of IT careers equipping them with unique enriching experience of molding tomorrow's technocrats with high caliber and commitment.

B.Tech. in Computer Science includes study of various aspects of computer to meet the requirements of the various industries. The course contains study of the basic computer sciences and its application, as well as the detailed study of the various aspects of its working. The course of B.Tech in Computer Science trains an individual in the fields related to computer and its industry.
