***SPANISH BASIC LEVEL PROGRAMME***

The Spanish is undoubtedly one of the most important languages today because the high percentage of the world's population speaks it, especially in countries such as Latin America and Spain. It is estimated that future projections will make the Spanish the official language spoken by more than 10 percent of the population in the next few years besides English and Chinese.

Spanish is the mother tongue of about 350 million people in 21 countries (Mexico: 98 million, Spain: 39 million, USA: 39 million, Argentina: 35 million, Colombia : 36 million, Venezuela : 22 million , Peru : 20 million...) it is also spoken in many more countries where it is not an official language.

In view of the present demand of this language, the students are going to be trained in Spanish Language from **20th September, 2014 to 29th September, 2014** by a native speaker, Mr. Camilo Castro Andrews.
