

**SHRI VISHNU ENGINEERING COLLEGE FOR WOMEN :: BHIMAVARAM
(AUTONOMOUS)**

**CAREER ASPIRATIONS IN SCIENCE & TECHNOLOGY
(CAST)**

It has been a regular practice to conduct a one-day workshop on CAST program which is intended for the new entrants of Engineering courses. The purpose of conduction of it is to help transform them from a mere intermediate student to a responsible and proactive individual for life and career.

Objectives:

In this workshop, the students will be able to:

- Differentiate higher secondary education and engineering
- Identify learning techniques for professional growth
- Utilize technology for effective learning
- Achieve career aspirations

Outcomes:

By attending this workshop, the students will:

- Understand “What is the real transition from school life to college life?” in the context of engineering education.
- Learn to prioritise and manage their time effectively
- Learn to focus and use their strengths to build a strong career in their four years of engineering
